### Flat Rate Shipping Guide

Below you will find a basic shipping guide with flat rate shipping costs based on the dollar amount of your order. These rates may adjust by a few dollars depending on your location.

Orders of one, two or three frames may cost the same because of the packaging. Adding a frame or two to your order may save on overall shipping costs. With larger orders we can skid the order for shipment on a common carrier like Roadway or Conway Express for greater cost efficiency, we'll find the best price.

For exact shipping, enter your selections in the cart, enter your address and zip code and then review your shipping options, prices and approximate travel time.

No purchase is necessary to access your final total. We check shipping charges for each order to insure the accuracy of our calculator and refund overcharges greater than \$5.00

Please contact us if you have questions on your freight cost.
